## We are truly grateful for your support

Your consideration of a gift to the Wood County Hospital Foundation is truly appreciated. All funds generated through the First Footprints program is restricted to the Family Birthing Center to assist them in enhancing patient care, providing the latest technology and educational opportunities for staff. Thank You!

# A Special Time and Celebration

At Wood County Hospital's Family Birthing Center, we share in the excitement of the birth of a new baby. It is a time of great joy.

Parents, grandparents, friends and relatives are always anxious to let everyone know about their precious new arrival. We are inviting families who have ever had a baby born at Wood County Hospital to honor the birth of their precious little one by having their baby's footprint on a tile outside the entrance of the Family Birthing Center.

With a contribution of \$50 to the Wood County Hospital Foundation, your baby can become a member of First Footsteps. When becoming a

member, his or her pink or blue footprint will be proudly displayed for all time. The baby's name and birth date appear as well.

As you honor the birth of your newest family member through your contribution to the Wood County Hospital Foundation, you are also helping sustain excellence in delivery and neonatal care by providing funds that will be used exclusively in this area. It makes a great present for the holidays, Mother's Day, Father's Day, or even for the little one's first birthday.

If you would like additional information, please contact the Wood County Hospital Foundation at 419.373.7627.

Footprints can be duplicated by copying, taking a picture of or using our generic footprint.
