

# KNOW WHERE TO GO

## *When You Need Care*

### *How to decide if you should go to the doctor's office, urgent care or the ER.*

When you are feeling sick or have a serious health situation, there are several options for medical care. Understanding the urgency of your ailment can help you decide when you

have a true medical emergency that requires an emergency room visit, when you can safely go to urgent care or when you should contact your primary care provider.

***If you do not have a primary care provider, call our Physician Referral Line at (419) 373-7613 to find a provider near you.***

#### PRIMARY CARE PHYSICIANS (PCP)

Your PCP should be your first call in non-emergency situations as they know your health history and what conditions may need to be considered in your treatment.

- Chronic conditions
- Prescription and drug management
- Pregnancy testing
- Allergy management
- Immunizations
- Specialty referrals
- Wellness services
- Diabetes management
- Physicals and annual exams
- Non-emergency pediatric, internal medicine or geriatric care

#### URGENT CARE AT FALCON HEALTH CENTER

Community walk-in urgent care services treat non-life threatening conditions and minor ailments and injuries and care outside of your PCP's office hours.

- Cuts or lacerations, when stitches may be required
- Minor injuries, sprains, strains
- Bladder infections
- Acute pain
- Fever that spikes
- Abdominal pain
- Asthma attack
- Minor burn
- Lab testing
- X-rays
